Independent Auditors' Report on review of interim financial information

To the shareholder of Hattha Kaksekar Limited

Introduction

We have reviewed the accompanying 30 June 2020 condensed consolidated interim financial information of Hattha Kaksekar Limited and its subsidiary (together referred to as the "Group") and the condensed separate interim financial statements of the Hattha Kaksekar Limited ("the Company"), which comprise:

- the condensed consolidated and interim statements of financial position as at 30 June 2020;
- The condensed consolidated and interim statements of profit or loss and other comprehensive income for the three-month and six-month periods ended 30 June 2020;
- The condensed consolidated and interim statements of changes in equity for the six-month period ended 30 June 2020;
- The condensed consolidated and interim statements of cash flows for the six-month period ended 30 June 2020; and
- Other explanatory notes to the condensed interim financial information as set out on pages 4 to 51.

Management is responsible for the preparation and presentation of these condensed interim financial information in accordance with Cambodian International Accounting Standard 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of review

We conducted our review in accordance with *Cambodian International Standard on Review Engagements 2400, 'Engagement to Review Historical Financial Statements'*. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Cambodian International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2020 condensed interim financial information is not prepared, in all material respects, in accordance with Cambodian International Accounting Standard 34, "*Interim Financial Reporting*".

Other matters

The financial statements of the Group and the Company as at and for the year ended 31 December 2019 were audited by another auditor who expressed an unmodified opinion on those financial statements on 27 March 2020.

The condensed interim statements of profit or loss and other comprehensive income, changes in equity and cash flows of the Group and the Company for the three-month and six-month period ended 30 June 2019 were reviewed by another auditor who expressed an unmodified conclusion on those condensed interim financial information on 14 August 2019.

HATTHA KAKSEKAR LIMITED AND ITS SUBSIDIARY

NOTES TO THE CONDENSED INTERIM FINANCIAL INFORMATION FOR THE THREE-MONTH AND SIX-MONTH PERIOD ENDED 30 JUNE 2020

1. REPORTING ENTITY

Hattha Kaksekar, a non-governmental organisation (“NGO”) established in November 1996, has created Hattha Kaksekar Limited (“HKL” or the “Company”) in order to comply with the Prakas No. B7-00-06 dated 11 January 2000 of the National Bank of Cambodia (“NBC” or “the Central Bank”) on the licensing of micro-finance institutions. The creation of HKL converted the NGO’s micro-lending operations into a licensed and commercially oriented micro-finance institution. HKL aims to continue the NGO’s micro-finance activities and conduct banking operations as defined in the Law on Banking and Financial Institution. The conversion was achieved by transferring and assigning all the assets and liabilities of the NGO as at 27 April 2001, the effective date of transfer, to HKL including all grant contracts and the outstanding receivables arising from these contracts as at the date of transfer, conditions and obligations relating to borrowings, all employment contracts, conditions, obligations and benefits, leases on premises or houses for office branches or headquarters, and all other related to the micro-lending operations of the NGO. The transfer and assignment of all these were put into effect through an agreement to transfer assets and liabilities, and the subordinated loan agreement between the NGO and HKL, both dated 27 April 2001.

In 2001, the Ministry of Commerce issued an incorporation certificate dated 3 April 2001 to HKL to operate as a limited company with the aim of providing credit and saving services for the lower segments of the market. On 19 October 2001, under license number 2, the NBC granted HKL a license to conduct micro-finance business for a three-year period which expired on 19 October 2004. On 12 July 2004, HKL obtained a new license for a three-year period which expired on 19 October 2007. The NBC granted an indefinite micro-finance license to the Company effective from 8 August 2007.

On 29 January 2010, the NBC granted HKL a license to conduct the deposit taking business.

On 9 October 2013, HKL obtained approval from NBC for operating Mobile Banking exclusively covering the services namely (1) balance inquiry, (2) account statement summary, (3) search ATM location, (4) fund transfers, (5) mobile top-up, (6) loan repayment, (7) check interest rate, (8) check exchange rate, (9) loan repayment alert, (10) advertising through mobile device and (11) SMS notification.

NBC approved HKL to be an Insurance Agent by acting as Referral for Prévoir Kampuchea Micro Life Insurance Plc. and Sovannaphum Life Assurance Plc. on 19 December 2014 and 29 December 2017, respectively.

The principal activity of HKL is to provide loans, savings and other financial services particularly to women and low income families through its head office in Phnom Penh and its various branch offices in the Kingdom of Cambodia.

HKL operates in 177 offices (including Head Office) located in Phnom Penh and all provinces of the country with the primary source of income being interest income earned on providing loans to customers.

The Company’s registered office is located at No. 606, Street 271, Sansam Kosal 3 Village, Sangkat Boeung Tumpun I, Khan Mean Chey, Phnom Penh, Kingdom of Cambodia.

Hattha Services Co., Ltd., the subsidiary, was incorporated on 8 October 2019 by the Company and Saray Holding Limited, a private limited company incorporated in Cambodia. The principal activity of the subsidiary is buying, selling, renting and operating of self-owned or leased real estate.

NOTES TO THE CONDENSED INTERIM FINANCIAL INFORMATION (CONTINUED) FOR THE THREE-MONTH AND SIX-MONTH PERIOD ENDED 30 JUNE 2020

2. BASIS OF ACCOUNTING

2.1 Basis of preparation

These condensed interim financial statements have been prepared in accordance with CIAS 34 Interim Financial Reporting, and should be read in conjunction with the Group and the Company's last annual consolidated and separate financial statements as at and for the year ended 31 December 2019 ("last annual financial statements"). They do not include all of the information required for a complete set of CIFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group and the Company's financial position and performance since the last annual financial statements.

The condensed interim financial statements of the Group and the Company were authorised for issue by the Board of Directors on 14 August 2020.

2.2 Functional and presentation currency

The Group and the Company transact its business and maintains its accounting records in three currencies, Khmer Riel ("KHR"), United States Dollars ("US\$") and Thai Baht ("THB"). Management have determined the US\$ to be the functional and presentation currency of the Group and the Company as it reflects the economic substance of the underlying events and circumstances of the Group and the Company.

Transactions in currencies other than US\$ are translated into US\$ at the exchange rate ruling at the dates of the transactions. Monetary assets and liabilities denominated in currencies other than US\$ at the reporting date are translated into US\$ at the rates of exchange ruling at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on translation are recognised in profit or loss.

2.3 Presentation in Khmer Riel

The translation of the US\$ amounts into Khmer Riel ("KHR") is presented in the condensed interim financial statements to comply with the Law on Accounting and Auditing dated 11 April 2016 using the closing for the year and average rates for the period, as announced by the National Bank of Cambodia.

Assets and liabilities for each statement of financial position presented are translated at the closing rate ruling at each reporting date whereas income and expense items for each statement of profit or loss and other comprehensive income and cash flow items presented are translated at the average rate for the period then ended. All resulting exchange differences are recognised in other comprehensive income ("OCI").

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by the management in applying the Group's and the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated and separate financial statements.

Critical judgments in applying the accounting policies

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the condensed interim financial statements included the followings:

Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group and the Company determine the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group and the Company monitor financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group and the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Critical judgments in applying the accounting policies (continued)

Significant increase of credit risk

Expected Credit Loss ("ECL") are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 and stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. In assessing whether the credit risk of an asset has significantly increased the Group and the Company take into account qualitative and quantitative reasonable and supportable forward-looking information.

Establishing groups of assets with similar credit risk characteristics

When ECLs are measured on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics. The Group and the Company monitor the appropriateness of the credit risk characteristics on an ongoing basis to assess whether they continue to be similar. This is required in order to ensure that should credit risk characteristics change there is appropriate re-segmentation of the assets. This may result in new portfolios being created or assets moving to an existing portfolio that better reflects the similar credit risk characteristics of that group of assets.

Re-segmentation of portfolios and movement between portfolios is more common when there is a significant increase in credit risk (or when that significant increase reverses) and so assets move from 12-month to lifetime ECLs, or vice versa, but it can also occur within portfolios that continue to be measured on the same basis of 12-month or lifetime ECLs but the amount of ECL changes because the credit risk of the portfolios differ.

Models and assumptions used

The Group and the Company use various models and assumptions in measuring fair value of financial assets as well as in estimating ECL. Judgement is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

Key sources of estimation uncertainty

Information about key assumptions and estimation uncertainties that have the most significant effect on the amounts recognised in condensed interim financial statements includes the followings:

Establishing the number and relative weightings of forward-looking scenarios for each type of product and determining the forward-looking information relevant to each scenario:

When measuring ECL the Group and the Company use reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued)

Probability of default (PD)

PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Loss Given Default (LGD)

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Incorporation of forward-looking information

HKL analyses forward-looking information by using the statistical regression model to assess whether the credit risk of an instrument has increased significantly to measure ECL.

The Group and the Company formulate three economic scenarios: a base case, which is the median scenario assigned a 35% probability of occurring, and two less likely scenarios, one upside 25% and one downside assigned a 40% probability of occurring. The base case is aligned with information used by the Group and the Company for other purposes such as strategic planning and budgeting. External information considered includes economic data and forecasts published by governmental bodies (National Bank of Cambodia) and international bodies such as World Bank and Bloomberg.

Weightage scenario	Base	Bad	Good
	35%	40%	25%

Based on the forward-looking analysis, HKL applied the forward-looking scalar in year one (1.42) for 12-month and lifetime ECL.

The ECL was estimated based on a range of forecast economic conditions as at reporting date. The Novel Coronavirus (Covid-19) outbreak has spread across mainland China, Cambodia and beyond, causing disruption to business and economic activity. The impact on Gross Domestic Product ("GDP") and other key indicators will be considered when determining the severity and likelihood of downside economic scenarios that are used to estimate ECL.

The calculation of the ECL in this current environment is subject to significant uncertainty. Management provides its best estimate on the possible outcomes of Covid-19 on the Group and the Company, however, this estimate may move materially as events unfold. Consequently, this number should not be seen as firm guidance or a forecast as to the final financial impacts expected. In the event the impacts are more severe or prolonged than anticipated in the scenarios, this will have a corresponding impact on the ECL, the financial position and performance of the Group and the Company.

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Fair value of financial assets and liabilities

Financial instruments comprise financial assets, financial liabilities and off-balance sheet instruments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group and the Company have access at that date. The information presented herein represents the estimates of fair values as at the financial position date.

Quoted and observable market prices, where available, are used as the measure of fair values of the financial instruments. Where such quoted and observable market prices are not available, fair values are estimated based on a range of methodologies and assumptions regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors.

Fair value information for non-financial assets and liabilities are excluded as they do not fall within the scope of CIFRS 7: Financial Instruments Disclosures which requires the fair value information to be disclosed. These include investment in subsidiaries and property and equipment.

The fair value of the Group and the Company's financial instruments such as cash and short-term funds, balances with the NBC, deposits and placements with banks and other financial institutions, deposits from customers and banks, other assets, other liabilities and short-term borrowings are not materially sensitive to shifts in market profit rate because of the limited term to maturity of these instruments. As such, the carrying value of these financial assets and liabilities at financial position date approximate their fair values.

Fair value hierarchy

CIFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources and unobservable inputs reflect the Group and the Company's market assumptions. The fair value hierarchy is as follows:

Level 1 – Quoted price (unadjusted) in active markets for the identical assets or liabilities. This level includes listed equity securities and debt instruments.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 – Inputs for asset or liability that are not based on observable market data (unobservable inputs). This level includes equity instruments and debt instruments with significant unobservable components.

The fair value of a financial liability with a demand feature (e.g. a demand deposit) is not less than the amount payable on demand, discounted from the first date on which the amount could be required to be paid.

The Group and the Company recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

10. INCOME TAX (continued)

(c) Income tax expense (continued)

Based on ANUKRET on Tax Incentive in CSX, HKL is entitled to reduce half amount of its tax on income within the duration of tax incentive period. In order to get the incentives, HKL needs to submit the request to the General Department of Taxation (“GDT”) through the Securities and Exchange Commission of Cambodia (“SECC”). On 20 December 2019, the Company received the letter from SECC informing that the request was submitted to GDT. The Company has issued a clarification letter to GDT regarding the approval on tax incentive. On 23 March 2020, the Company received the approval from the GDT on the tax incentives and thus reduced half of its tax on income for the fiscal year 2019.

For fiscal years 2020 and 2021, the Company shall implement the new Prakas No. 183 on Implementation Guidelines on Tax Incentives on Tax on Income to New Securities Issuing Enterprises issued by the Ministry of Economy and Finance.

HKL uses the above derivatives to manage its exposure to foreign currency and interest rate risk. The instruments used principally include interest rate swaps and currency swaps.

Interest rate designated in cash flow hedges was applied on 1 January 2020. The designated hedged exposure is \$80,000,000 layer of HKL's USD fixed deposits portfolio. The amount is exactly matched notional amount of the hedging instrument and this results in a hedge ratio of 1:1 or 100%. This ratio is consistent with the strategy to hedge the total exposure arising from refinancing of fixed deposits. Cash flows hedge reserves amounting to US\$6,843,268 and related deferred tax assets amounting US\$1,368,654 were recognised in OCI.

32. TAX CONTINGENCIES

On 19 March 2019, the General Department of Taxation (“GDT”) issued a notice of tax reassessment to the Group and the Company to pay reassessed taxes of KHR 31,255,677,651 (approximately US\$7.7 millions) for the fiscal year 2016.

On 11 April 2019, the Group and the Company filed a tax objection letter to the GDT protesting to the reassessed taxes. As a result, HKL received the 2nd Notice of Tax Reassessment from the GDT dated 9 July 2019 re-imposing taxes in total amount of KHR 30,958,899,567 (approximately US\$7.6 millions). The Group and the Company have not made provision at this stage as the Group and the Company believe that there are reasonable grounds to challenge the assessment as stated in the tax law and regulations mentioned in its objection letter.

The Group and the Company have engaged tax advisor to help on this matter and filed 2nd protest letter to the GDT on 30 July 2019. On 8 January 2020, the Group and the Company have received a response to the 2nd protest letter from the GDT. There is no change in the reassessment amount. However, the Group and the Company have consulted with the tax advisor and it is believed that the Group and the Company would have reasonable grounds to challenge the case. Therefore, the Group and the Company decided to move on with 3rd protest requesting the GDT to transfer the case to litigation department. The letter was signed on 23 January 2020 and submitted to the tax agent for further process to the GDT. The Group and the Company have not recorded any contingent tax liability as at 30 June 2020. The outcome of the ultimate tax liabilities for this assessment is unknown.

33. SIGNIFICANT EVENT

Impact of COVID-19 Outbreak to the Group and the Company

Since January 2020, the outbreak of Novel Coronavirus (“COVID-19”) has had an impact on the global business environment, including Cambodia. COVID-19 has resulted in a significant impact on some customers’ repayment capacity. Further deterioration in economic conditions resulting from the continued spread of COVID-19 and government response to the disease may have a material impact on the financial results of the Group and the Company, the extent of which could not be estimated as at the date of this report. The Group and the Company will keep continuous attention on the situation of the COVID-19 and react actively to mitigate risks to the financial position and operating results of the Group and the Company.
